

HYBRID PRO

*The hybrid technology
wood stain*

**The best
of solvent-based
and water-based coatings**

ALL THE ADVANTAGES IN ONE FORMULA

**Exterior
Wood Coating**
Certified by Catas

HYBRID PRO

**The pigmented wood stain boasting
the best of all existing technologies**

Boosted performances outdoors

*Lacquered windows - shutters - entry doors
by flow-coating, dipping, brush and spray gun*

WET ADHESION BEYOND COMPARISON

Hybrid Pro [code YM M097/C02] is the hybrid wood stain for exterior, boasting all the advantages of water-based and solvent-based technologies. Its main strength is the excellent adhesion to the wooden support, even in condition of very high humidity. An exclusive adhesion, a solid foundation for the entire coating system. Thanks to the application of Hybrid Pro as wood stain for doors and windows, also intermediate products and topcoats are improved in quality. Concerning wet adhesion, Hybrid Pro is certified Catas Quality Award because it complies with EN 927 standard, if applied in a Top Quality² coating system.

A VALUABLE PARTNER AGAINST THE WOOD CRISIS

Hybrid Pro is a precious partner in such a delicate moment, in which the world of wood faces a strong crisis, including compromised quality and scarce supply. The doors and windows, treated with the hybrid wood stain, don't show wood instability and fiber swelling. Hybrid Pro is specific for softwoods and timbers without tannins and allows the use of non-first choice wood.

ALL THE OTHER ADVANTAGES FOR DOORS/WINDOWS PRODUCERS

Hybrid Pro hiding wood stain [code YM M097/C02] boasts an innovative formula based on hi-tech oils and resins. Hybrid Pro boasts 30% of solid content. Those, who need higher solid content, can choose the intermediate product from the same hybrid range [code YL S055/C02], that reaches 40% and strengthens the advantages of this treatment.

- Higher adhesion to the wood
- Stop fiber swelling
- Blocking
- Stop flammability of the product inside the can
- Ultra-fast drying
- Non-yellowing power
- Colour uniformity
- Low VOC emissions
